Easy Touch & Transducer

Take it Easy,
Take EasyTouch

Transducers

Static and rotary

Torque and Torque & Angle rotary transducers

Can be connected to EasyTouch to calibrate all types of power tools. Available with internal memory for automatic recognition when connected to or EasyTouch.

RMCTA Torque & Angle rotary transducer

RMC Torque rotary transducer

Freedom RMCTA	Capacity		Drive
	Nm	ft lb	Inch

Technical specification

Features	Options
<p>Performance: 1 GB internal memory, 20.000 data results - 20.000 curves - 1.000 programs</p> <p>Display: 2,3" Touch screen, resolution: 320x240 pixels, 65.535 colors</p> <p>Power Supply: Internal rechargeable battery: 3,6V – 2.700 mAh; battery life 9 hours</p>	<p>F3 Explorer software (USB cable included)</p> <p>Firmware Upgrade for displaying curves and statistical charts</p> <p>Bluetooth module for printing and wireless transducer connection</p>

FREEDOM RMC/RMCTA

Torque rotary transducer (RMC) and torque-angle rotary transducer (RMCTA), to test click and dial wrenches; pulse tool (with and without shut-off); 1 and multistep power tool directly on the joint.

FREEDOM RMC/RMCTA with Bluetooth

Torque rotary transducer (RMC) and torque-angle rotary transducer (RMCTA), to test click and dial wrenches; pulse tool (with and without shut-off); 1 and multistep power tool directly on the joint. Available with Bluetooth.

Discover Simplicity

SCS easy

Thanks to the user friendly software and integrated gyroscope, you can easily and accurately check the tightening of your fasteners.

Technical specification

Characteristics:

Measurement of torque and angle in either continuous or peak modes

Breakaway Torque

CW & CCW reading

Torque tightening or Torque+Angle tightening with torque window

Selectable units of measurement Nm, lb\in, lb\ft, Kgm

Standard drives for tool attachments 9x12 or 14x18

Accuracy:

Torque $\pm 1\%$ of the reading from 10% to 100% of the full scale (± 1 digit)

Angle: $\pm 1^\circ$

Conforms to UNI-EN-ISO 6789-2004 international standards

Memory:

Internal memory of 900 results

Display:

132x32 pixel backlighted

Power supply:

4xAA standard rechargeable batteries for 40 hours continuous operation without backlighting

Functions:

Calendar\clock

Auto power off

Three alarm LED: red, yellow and green + buzzer

RS232 communication to your PC

Model SCS easy	Range Nm	Drive mm	L1 mm	Weight Kg
easy 10 - easy 10 TA	1 - 10	Rev. Ratchet M 1/4"	240	0,40
easy 50 - easy 50 TA	5 - 50	9 x 12	357	0,90
easy 100 - easy 100 TA	10 - 100	9 x 12	418	1,04
easy 200 - easy 200 TA	20 - 200	14 x 18	512	1,25
easy 350 - easy 350 TA	35 - 350	14 x 18	610	1,44

Freedom³- LAB mode

DAIICHI-DENTSU LTD. 

Freedom³ LAB is a torque & angle wrench designed to be programmed locally by Touch-screen and keyboard. For every Quality Control test, or for every tightening program, Freedom³ LAB saves test results and curves.

- Quality Control
- Smart Breakaway
 - Breakaway Peak
 - Breakaway Angle
 - Open\Close
 - Minimum Torque
 - Loose Torque

- Tightening Strategies
- Fasten Torque Driven
 - Fasten Torque\Angle
 - Fasten Yield
 - Fasten Yield\Angle

- Joint analysis
- Allows to analyze the behaviour of the joint, in order to find the best tightening strategy

- Curves and Statistic
- Torque\Time curve
 - Torque\Angle curve
 - Curves analysis directly on the wrench
 - Zoom function directly on the wrench
 - Sample charts

Programming on board
In the LAB version, Freedom³ is programmed directly on board from the user. It is not necessary to connect the wrench to the pc.

Quality tests or tightening strategies
Once Freedom³ is programmed, the user can start to run the tests. Thanks to the LEDS and vibration functionality, the user is advised when the target is reached.

Download data to Freedom³ Explorer software
Freedom³ LAB can store 20000 results, 20000 curves, 10000 programs. F³ Explorer allows to collect data and curves from SCS instruments, export to Excel, shows multi-curves and graphics.

Options and accessories

Quick interchangeable battery

Rubber protection

LED Indicator

USB port

External battery charger (single/double)

Freedom³ Explorer software

Buzzer and vibration alarm

Freedom³

Freedom³- SPC mode

DAIICHI-DENTSU LTD.

The Freedom³ SPC is a torque & angle wrench designed to work receiving routes (list of Quality Control and main tightening programs) from management software (SQnet+ /QSTorque)

Curve and Statistic on Freedom³

- Torque\Time curve
- Torque\Angle curve
- Curves analysis directly on the wrench
- Zoom function directly on the wrench
- Sample Charts
- Statistical evaluation management of XR Charts and trend control

Quality Control

- Smart Breakaway
- Breakaway Peak
- Breakaway Angle
- Open\Close
- Minimum Torque
- Error codes

Pictures and info

- Freedom³ can show the pictures of the bolts where the user has to tighten or taken control test

SQnet+ Software

SQnet Software

- SQnet+ is a software for programming Freedom³ SPC.
- SQnet+ manages tools, locations, operations and quality control
- Interface with QSTorque and other management software available

Programming by SQnet+
With SQnet+ it is possible to send routes of programs or jobs. Once Freedom is uploaded, the wrench is ready to work.

Working with Freedom³
User can select the test to run or he must follow a precise sequence. After every single test, Freedom³ shows their status (green points for OK test, red points for not OK test)

Download data to SQnet+
When the route test is completed, the user can download data to SQnet+ by USB port (it is possible to download data to SQnet+ also if the route is not completed).

SQnet+ Software
SQnet+ manages tools, operations locations and quality control of production lines. On SQnet+ it is possible to analyze statistic and curves received from Freedom SPC

Barcode scanner

Rubber protection

LED Indicator

USB port

External battery charger (single/double)

SQnet Software

Upload \ Download route data via Wi-Fi
